SELF-PRIMING PUMPS

FEATURES

Body:	Bronze
Impeller:	Neoprene, Nitrile
Shaft Seal:	Lip Type
Ports:	3/8" NPT Female Two 3/4" Male Garden Hose Adapters Included
Motor:	1/6hp - 115V AC, 60 Hz ODP Motor 1/4hp - 115V AC, 60 Hz TENV Motor
Protection:	Thermal Overload
Shaft:	Stainless Steel
Cord:	8' Cord with 3 Prong Grounded Plug
Weight:	12 lbs (5.4 kg)

WARNING
Explosion hazard. Do not use where flammable vapors are present. Do not pump gasoline, solvents, thinners or other flammable liquids. To do so can cause an explosion resulting in injury or death.

VARIATIONS AVAILABLE

MODEL NO.	DESCRIPTION
18655-0001	Open Drip Proof Motor, Neoprene Impeller
18655-0003	Open Drip Proof Motor, Nitrile Impeller
18655-0271	Totally Enclosed Motor, Neoprene Impeller

APPLICATIONS

INDUSTRIAL

Circulating, transferring, velocity-mixing, pumping machine tool coolants, sump drainage, soap, ink, dyes, alcohol, glycerine, brine and heliarc welding equipment cooling.

FARMING

Livestock watering, pumping water from shallow wells and cisterns.

MARINE

Washdown and utility dock side pumping.

PLUMBING & HOME EMERGENCY USE

Pumping out flooded basements, cesspools, sumps, water heaters and water closets, drains and sinks, draining fishponds and small pools.

PUBLIC UTILITIES AND MUNICIPALITIES

Dewatering and draining meter boxes and excavations, dust control and sampling.

OPERATING INSTRUCTIONS

- INSTALLATION:** Pump may be mounted in any position. Inlet port is on the right and discharge port on the left when facing pump.
- SELF-PRIMING:** Dry suction lift is 6 feet. Dry suction lift with Neoprene impeller. Pump will produce suction lift up to 20 feet when wetted. SUCTION LINES MUST BE AIRTIGHT OR PUMP WILL NOT PRIME.
- DISCHARGE LINE:** When transferring liquids further than 25 feet, discharge line size should be increased to next available pipe size.
- RUNNING DRY:** DO NOT RUN DRY. Impeller depends on liquid pumped for lubrication. Dry running will damage the impeller and void warranty.
- NOTICE:** Consult Jabsco Chemical Resistance Table for appropriate body and impeller materials. Pump life is prolonged if pump is flushed with water after each use.
- LIQUID TEMPERATURE RANGE:**

Neoprene:	45° to 180° F (7° to 82° C)
Nitrile:	50° to 180° F (10° to 82° C)
- FREEZING WEATHER:** Loosen end cover screws to drain pump. Use glycol and alcohol based anti-freeze compounds. DO NOT USE PETROLEUM BASED ANTI-FREEZE COMPOUNDS OR RUST INHIBITORS.

SERVICE INSTRUCTIONS

CAUTION Corrosive, caustic, or toxic fluids should be drained and flushed completely prior to service. Failure to do so can cause injury. Do Not Service With Power Connected.

DISASSEMBLY

Refer to Exploded View on the following page.

- Remove end cover screws (1) end cover (2), and O-ring (3).
- Remove impeller (4).
- Loosen and remove the two slotted hex screws (7) that attach pump body (6) to motor (8).
- Disengage the shaft seal (5) from the seal bore using a 1/2" diameter dowel. Push the shaft seal from the motor-side of the pump body.
- Do not tamper with or disassemble the motor.

ASSEMBLY

- Lubricate seal (5) with water. Position seal in bore with hollowed-out side of lip seal pointing toward the impeller bore. Using a 1/2" dowel, push seal into bore until it contacts the bottom.
- Lubricate motor shaft and install body (6) on motor.
- Lubricate impeller bore. Align impeller (4) and motor shaft flats. Install impeller with a clockwise motion.
- Install O-ring (3), end cover (2) and screws (1).
